Subject: LNAPL Evaluation Expectations - GWMWG Meeting Presentation
Attachments: Overview LNAPL Evaluation - Primary Considerations - Final.pptx

Hi All,

Matt and I worked to get this presentation together for the GWMWG meeting, and Gary provided some comments to the content early on, but I do not believe he has seen this version. As we discussed previously, this presentation omits reference to the tentative proposal that the Navy discussed earlier this week. Regardless of the path forward we discuss with the Navy next week, I believe this presentation reflects our expectations around LNAPL characterization. If we have more information to share by Friday I think we can deliver it verbally.

Given the half hour we have to present and discuss this with the GWMWG meeting, I also think this is an appropriate length of presentation.

Let me know if DOH has comments or is fine with the presentation as is.

Thanks,

Lyndsey Tu
